ITP & Vaccination Manager – The Australasian College  
of Pharmacy

Page 1 of 2

This statement of completion certifies that the pharmacist has successfully completed the online and workshop component of the A2401VAC1-WA Pharmacy Guild Immunisation Course and can now provide vaccination services within Western Australia. This qualification may not be recognised in other jurisdictions.

## Learning objectives:

- Recognise the background to immunisation as a public health measure, including the body's response to vaccination, and the role of immunisation in public health across a number of population groups
- Recognise immunisation requirements across the age continuum, including the National Immunisation Program
- Recognise the importance of recording immunisations
- Recognise the risks associated with a number of vaccine preventable diseases on the NIP, including the vaccination requirements in the community and vaccine administration requirements (contraindications, storage and administration)
- Identify the occupational requirements of pharmacists administering vaccines, including cold chain management, risk management, procedures and jurisdictional requirements
- Recognise the appropriate procedures for preparing and administering vaccines for children and adults, including consent, positioning, identifying injection sites, appropriate pre-screening and recording of vaccinations
- Recognise the appropriate procedures for preparing and administering vaccines for children, including positioning, identifying injection sites and development of catch-up schedules
- Identify appropriate after-care following immunisation, including recognition of adverse events following immunisation and anaphylaxis response.

## Competencies addressed:

1.1, 1.2, 1.3, 1.4, 1.5, 1.6, 2.1, 2.2, 2.3, 2.4, 3.1, 3.2, 3.3, 3.5, 3.6, 4.2, 4.5, 4.6, 5.2, 5.3
